

1. Click on the Start menu, select Control Panel

Note: If you are running Windows XP in classic mode, you will need to:

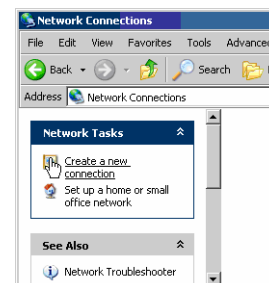

- a. *Select the Start menu, select Settings, then choose Control Panel.*
- b. Then in Control Panel, click the Switch to Classic View icon

2. Double-click the Network Connections icon

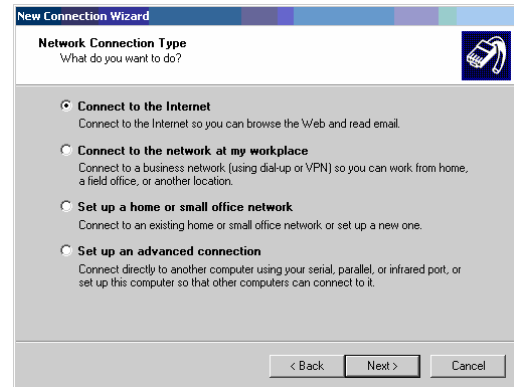

3. Click the Create a new connection icon

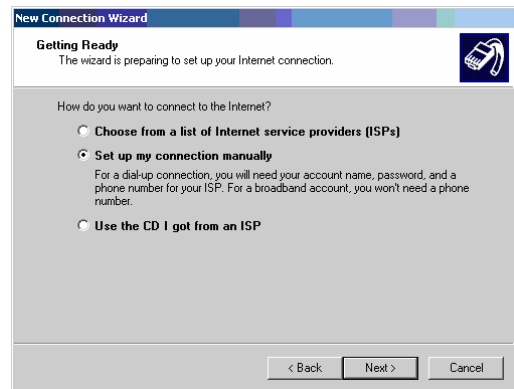

4. The *Welcome to the New Connection Wizard* screen will open. Click the **Next** button.

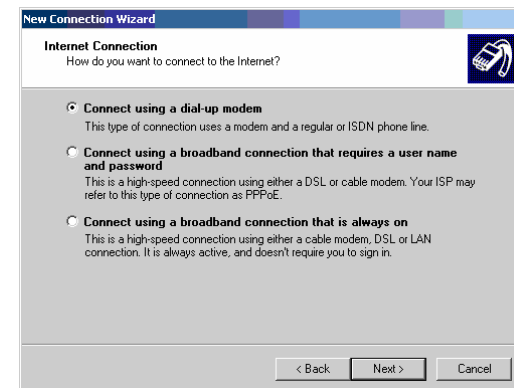

5. Select **Connect to the Internet**. Click the **Next** button.

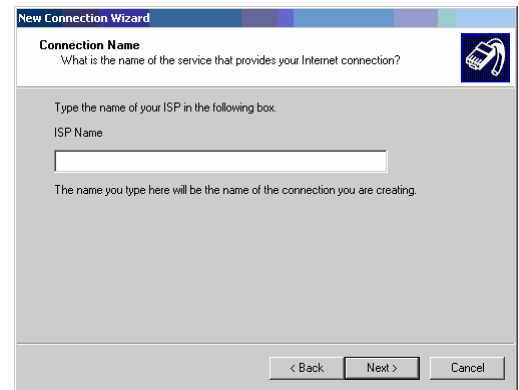

6. Select **Set up my connection manually**. Click the **Next** button

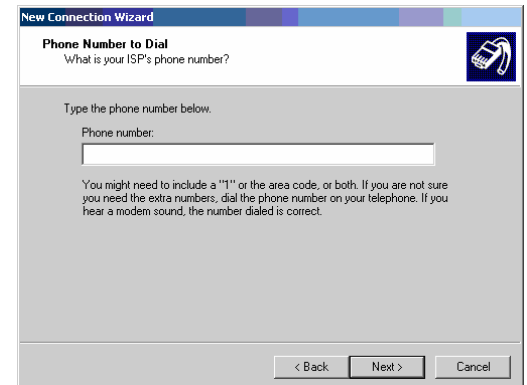

7. Select **Connect using a dial-up modem** and Click the **Next** button.

8. In the **ISP Name** field, enter **Caribe.Net** to identify your connection. Click the **Next** button.

9. In the **Phone number:** field, type the **Caribe.Net** phone number which is local to you and click the **Next** button. Visit www.caribe.net/numbers.html for a complete list of phone numbers available.

10. Please refer to the **Welcome Letter** that was faxed to you and proceed with the following on the **Internet Account Information** screen:

In the **User name:** field, type your **Username**.

In the **Password:** field, type your **Password**.

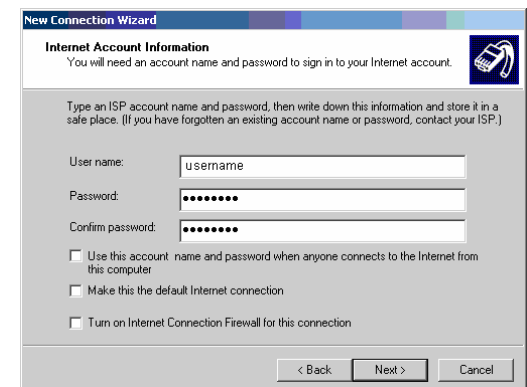

In the **Confirm password:** field, type your **Password**.

Uncheck the box next to **Use this account name and password when anyone connects to the Internet from this computer**.

Check the box next to **Make this the default Internet connection**

Uncheck the box next to **Turn on Internet Connection Firewall for this connection**.

Then click the **Next** button.

11. Check the box next to **Add a shortcut to this connection to my desktop** if you wish to have a shortcut to the connection on your desktop. Then click the **Finish** button.
